

Theory and history of culture, art

Melnikova A. S., Ivshin K. S., Golubeva O. A.

Role of regional museum institutions in creation of modern design product
(as an example of state memorial architectural complex «Memorial estate of P. I. Tchaikovsky»). 9

Alekseev D. Y., Kozhemyakin A. O., Chernyaga O. A.

How to write the history of St. Petersburg: conceptual principles of the exhibition
«St. Petersburg — history of development». 15

Art forms (technical aesthetics and design)

Mikhailova A. S., Safin R. S., Ibragimova F. A.

Basic prerequisites for the formation industrial design in Japan 21

Vankovich A. V., Anichkova M. M.

The Alexandre III Bridge — monumental art object of the 1900 Paris Exposition Universelle 27

Ivshin K. S., Antipina E. V., Yarkova E. V.

Development of basic design competencies for students in the design direction (undergraduate) 37

Semenova T. V., Zhukova L. T.

Theoretical aspects of design research in the artistic and technical sphere on the example
of the first interdisciplinary educational institutions 44

Noskov F. M., Lyubenkova A. A., Lytkina S. I., Berezyuk V. G., Kaposhko I. A., Voevodina E. S.

Analysis of the effectiveness of undergraduate training in the field of «Technology
of artistic processing of materials» within the framework of training specialists of creative industries 50

Isupova E. V., Balashov M. E.

Design and analysis of stylistic solutions of kitchen areas over the last century (1920–2020) 55

Baisheva D. A., Zhukova L. T.

Development of a method for marking sports equipment for mas-wrestling 61

Kaukina O. V., Naumov V. P.

Digital technologies in jewelry design: from idea to implementation. 68

Kuklina A. V., Kukhta M. S.

The role of ergonomics in the correction of sensor deprivation in cosmonauts under weightless conditions. 75

Mikhailova A. S., Safin R. S., Hafizov R. R., Khusnutdinova L. R.

National component in art of graffiti and supergraphics 84

Zhukov V. L., Smirnova A. M., Dunaeva A. A.

Folk landscapes of german fairy tales in artistic images of design objects of interior solutions with the function
of a children's zone in the romanticism of the works of the brothers Jacob and Wilhelm Grimm 94

Piirainen V. Y., Kiriyyenko I. P., Makhova T. O., Sharapova D. M.

Ontology of urban environment design objects 103

Zhukov V. L., Smirnova A. M., Grave V. D.

Transhumanistic approaches in the cosmicity of natural realities, represented by artistic images
of design objects of jewelry art in the relevance of modern culture of scientific fiction works
by I. A. Efremov with antique and mythologemes of astronomical pratothermism 110

Baishev D. A.

The symbolic meaning of traditional ornaments in Yakut arts and crafts 120

■ Content

Al zubeidi A. Najim
Using calligraphy ornament to decorate Arabian women clothes and its effect on modern Arabic mode 126

Technology of textile and light industry products

Elokhin I. V., Mikhailovskaya A. P., Sitnikova V. E.
Effect of surfactants on the structure of polypropylene 133

Materials science

Zhukova L. T., Kozitsyn I. P.
Interpolation of the coefficients for calculating the viscosity of glass using the Okhotin method for the interval $9 > \lg(\eta) > 5$ 138

Pribytkova D. A., Pryakhin E. I.
Analysis of methods for increasing the adhesive strength of corrosion-resistant coatings of heating pipelines. 142

Zhukova L. T., Rybakova M. E.
Investigation of experimental chromaticity data for predicting the concentration of dyes in opal glasses 148

Makarov A. G.
Method for spectral-temporal modeling of viscoelasticity of polymer textile materials 154

Azarov V. A., Pryakhin E. I.
Ensuring the adhesion of the fluoroplastic coating to the steel substrate 160

Wagner V. I., Egorova M. A., Egorov I. M.
Modeling of relaxation of polymer textile materials for technical purposes 166

Automation and control of technological processes and productions

Bityutskiy A. D., Ivleva L. P.
Application of topological optimization for the development of jewelry as the example of a bionic pendant creation 171

Computer modeling and automation

Sukhanov M. B., Medvedeva A. A., Malgunova N. A.
The use of neural networks in textile design 177

Makarov A. G., Demidov A. V.
Development of methods for digital prediction of deformation processes of polymer textile materials 184
