

**Theory and history of culture, art***Shmidt I. O., Deryabina T. Yu.*

Analysis of plant motifs in karelian embroidery. Textile design . . . . . 9

**Museology, conservation and restoration of historical and cultural objects***Proshin S. E., Zhukova L. T.*Obtaining the certificate «Monument of Science and Technology» for the ZIS-155 bus  
under the program of the Polytechnic Museum . . . . . 19**Art forms (technical aesthetics and design)***Maltseva E. A.*

Kitsch in the everyday space of the urban environment. . . . . 26

*Safronova I. N., Dzhikiia L. A., Aipova M. K.*

FC «Zenit» project: development of branded souvenir clothing with club attributes . . . . . 31

*Ulshina V. K., Milchakova N. E., Konovalova N. V.*

Methods of interaction of text and image in the context of motion design . . . . . 41

*Mitrofanova N. Yu.*Homeostatic modeling of balance management. Traditions and innovations relations  
in the textile field of arts and crafts . . . . . 47*Prokhorov S. A., Prokhorov N. S., Likhatskaya L. N.*

Information technologies in the process of building a composition of digital painting . . . . . 54

*Amirzhanova A. Sh.*Natural forms and motifs as a creative source of inspiration in the development  
of fashion and in the development of the author's costume . . . . . 60*Zhukov V. L., Haritonova P. N.*Parure «Josephine Bonapart» in the eclecticism of filigree morphology with artistic images  
of jewelry design objects in the Empire style . . . . . 68**Technology and processing of synthetic and natural polymers and composites***Kudriavtseva E. V., Burinsky A. A.*

Production of silicon dioxide nanoparticles . . . . . 77

**Technology of textile and light industry products***Pereborova N. V.*

Evaluation of relaxation and recovery properties of polymeric textile materials . . . . . 83

*Kozlov A. A.*Methods for digital prediction of back relaxation processes  
in polymeric textile materials . . . . . 87*Egorov I. M., Egorova M. A.*

Digital modeling of deformation processes of twisted polyester yarns . . . . . 91

*Zhukova L. T., Kozitsyn I. P.*

Promising areas of application of vacuum bending technology for flat glasses. . . . . 97

## ■ Contents

### Materials science

*Demidov A. V., Makarov A. G., Pereborova N. V., Kolodin A. A.*  
Improving the reliability of digital prediction of deformation processes of polymeric textile materials . . . . . 103

*Kolodin A. A.*  
Methods for predicting the deformation and relaxation properties of polymer sea ropes. . . . . 108

### Computer modeling and automation

*Klimova N. S.*  
Computer simulation of deformation properties of polymeric textile threads for parachuting . . . . . 113

*Vagner V. I., Pereborova N. V., Tomashevich Ya. S., Chistyakova E. S.*  
Computer simulation of viscoelasticity of oriented polymer textile materials . . . . . 118

*Makarov A. G.*  
Computer modeling and digital prediction of elastic, viscoelastic and plastic properties of synthetic threads . . . . . 124

*Suvorov A. P., Kuzovkin A. V., Vorobyov E. I., Volodin F. A.*  
Integrated design technologies in modern engineering production . . . . . 129
