

CONTENT

COMPUTER SCIENCE, COMPUTER TECHNOLOGY AND CONTROL

N. N. Ermolaeva, G. I. Kurbatova Non-stationary model of the growth of the sea ice	3
A. M. Balonishnikov Limit drag laws for Taylor - Couette flows and in a straight round pipe at large numbers Reynolds	9
A. I. Bogdanov, D. V. Orekhov On the issue of building an automated process forecasting system based on analysis of time rows	13
N. V. Pereborova, M. A. Egorova, A. M. Shvankin Methodology for mathematical modeling of polymer deformation processes textile materials	20
O. V. Kondakov, K. G. Ivanov Scattering of "hot electrons" in conditions magnetic quantization.....	29
N. V. Pereborova, A. M. Shvankin, M. A. Kovtun Prediction of complex deformation processes of polymer materials, used for production shoe.....	38
A. V. Krasov, P. I. Sharikov Methods for protecting the bytecode of a java program from decompilation and theft of source code intruder	47
N. V. Pereborova, A. M. Shvankin, A. A. Kozlov Methods for modeling the viscoelasticity of polymeric fibrous materials of complex buildings.....	51

CHEMICAL SCIENCES

V. V. Bel'kovich, A. M. Mikhailidi, N. E. Kotelnikova, E. N. Vlasova Physicochemical and morphological properties of fibers, isolated from waste paper and cardboard.....	60
A. N. Aitova, A. A. Burinskaya Improving the technology of printing protein textile materials using intensifying additives	65

ENGINEERING AND ENGINEERING

V. N. Drozdov, E. A. Shefer Compensation of the influence of defects in the shape of the impression cylinders on the quality print by resizing the raster dot on the prepress stages	69
I. G. Gruzdeva, Yu. V. Kudrin Study of colorful compositions with protective properties based on phosphors chalcogenide group (part 2)	73
S. Yu. Arapov, I. S. Dubinin, S. P. Arapova, M. S. Solodova, A. G. Tyagunov Reading color profiling bars multispectral printing process photography.....	79

PRODUCTION ORGANIZATION STANDARDIZATION AND QUALITY MANAGEMENT

Tamisanont Chuwong, L.N. Nikitina Thailand's competitiveness in the production of textiles and objects clothes	86
A. V. Lebedeva, E. M. Freidkina Principles for the formation of an effective wage system at automotive enterprises urban passenger transport.....	95

MECHANICS

D. A. Shurygin, N. A. Monina, A. S. Bobrenko

About equalizing the temperature field of heated transport cylinders.....100

V.P.Sokolov, V.V. Makarenko

Optimization of the process of non-contact measurement of surface roughness based on application of television and computer technologies 105

V. T. Sergeev

Investigation of the tension of warp threads depending on the location of the threads in height creel in the manufacture of multilayer hollow fabric from quartz and carbon threads.....109

V. T. Sergeev, S. D. Nikolaev

Tension study of carbon and quartz threads in the manufacture of multilayer hollow fabric118
