

**CONTENT****INFORMATICS, COMPUTER ENGINEERING AND CONTROL****Ivakin Ya.A., Potapychev S.N.**

Improvement of information technology of geochronological tracking for interdisciplinary research in GIS ..... 3

**Kazakov A.Ya., Zhikhareva A.A., Pasechnik P.A.**

Principal component analysis and graphic file processing ..... 10

**Sultanov K.S., Ismailova S.I., Mamatova N.R.**

Parameters of a physically nonlinear elastic-viscoplastic law of deformation of cotton yarn and their definition ..... 17

**Rozhkov N.N., Matveeva A.V., Suslov D.N.**

Improving the standards of medical care in the Russian Federation using mathematical modeling methods..... 25

**Sukhanov M.B.**

Algorithm and technology for creating a training video based on an electronic presentation ..... 30

**O. V. Kondakov, K. G. Ivanov**

Electromagnetic processes in an anisotropic crystal ..... 36

**Mashchinsky N.S., Elaev E.V.**

Generation of test influences for diagnostics of digital electronic systems ..... 41

**Bazhanov P.V.**

Method for correcting scattering and random coincidences in PET data ..... 46

**CHEMICAL SCIENCES****Susanin A.I., Sashina E.S., Zakharov V.V., Novoselov N.P.**

The effect of chemical treatment of silk fiber on the molecular weight of silk fibroin ..... 50

**Midukov N.P., Efremov D.S., Kurov V.S., Smolin A.S., Shreiner T., Grossmann H., Kuznetsov A.G.**

Preparation of fibers for cardboard production ..... 56

**Zykova I.V., Isakov V.A.**

Adsorption of phenols by the example of resorcinol from model solutions by various sorbents under static conditions..... 61

**Zykova I.V., Isakov V.A.**

Adsorption of phenols by the example of resorcinol from model solutions by various sorbents under dynamic conditions ..... 66

**Diaghileva A.B., Vakhrusheva A.A., Smirnova A.I.**

New solutions for the use of reagents in water treatment of natural waters in the north-western region..... 71

**Vlasov P.P., Alexandrova L.Yu.**

Thermochemical methods of recovery of regeneration solutions of sodium chloride na-cation exchange filters ..... 78

**Letenkova I.V., Ilyina S.S.**

Investigation of the kinetics of adsorption of ions of heavy metals from aqueous

solutions by chamotte crumbs.....	82
<b>Yakovlev V.A., Nesterova E.N.</b>	
Comparison of the efficiency of one- and two-stage schemes of absorption cleaning of flue gases from sulfur dioxide.....	86
<b>Kargina S.I., Bezdenezhnykh A.G., Krutikova V.R.</b>	
Analysis of the structure and composition of fibers for subsequent coloring of materials .....	98

## **PRODUCTION ORGANIZATION STANDARDIZATION QUALITY MANAGEMENT**

### **Nikitina L.N., Shikov P.A.**

Application of the vitality index and the integral indicator of the competitiveness of small businesses in the textile and light industry .....	101
---	-----

### **Demidov A.V., Pereborova N.V., Klimova N.S.**

Prediction of relaxation and deformation processes of aramid textile materials is the basis for a qualitative analysis of their operational, consumer and functional properties .....	106
---	-----

### **Pereborova N.V., Maksimova N.A.**

Logistic model of the process of organizing a warehouse for finished products of the textile and light industry .....	114
---	-----

### **Treiman M.G., Ivanischeva O.V., Varygina O.S.**

Environmental and economic assessment of the use of chemical reagents for dust suppression at the enterprise of JSC "Kovdorskiy Gok" .....	118
--	-----

### **Pereborova N.V.**

Increasing the competitiveness of aramid textile materials based on a qualitative analysis of their operational and deformation properties.....	123
---	-----

### **Bogdanov A.I., Mongush B.S.**

Optimization of the production plan of the light industry enterprise of the republic of tyva .....	133
--	-----

### **Sirotnina L.K.**

Application of the process approach in operational management of production .....	137
---	-----

### **Pereborova N.V., Egorova M.A., Egorov I.M.**

Prediction of shrinkage and recovery properties of aramid textile materials.....	142
--	-----

### **Ilyinsky V.V.**

Development of an algorithm for automatic calculation of wages in the information application with the ordering system taking into account the point system and bonuses.....	151
--	-----

## **ENGINEERING AND ENGINEERING**

### **Kuznetsov K.Yu., Markovets A.V., Lugantseva T.A., Mazin L.S.**

Investigation of the function of displacement of the punch of an ultrasonic sewing machine .....	155
--	-----
