

## TABLE OF CONTENTS 1-1-22

### MATH MODELING. METHODS AND SYSTEMS OF INFORMATION SECURITY

|   |    |
|---|----|
| <b>I. A. Ushakov, A. V. Krasov, D. D. ugli Mulladzhyanov</b><br>Technique for detecting anomalies in network traffic using IPS based on Security Onion .....  | 5  |
| <b>V. I. Andrianov, E. V. Maiorova, V. V. Nefedov, A. D. Lebedeva</b><br>Methodology for using steganographic software agents in a trusted Linux environment .....  | 12 |
| <b>V. S. Zurakhov, M. D. Shabala, A. A. Dyatchenko, A. V. Kostryukov</b><br>Mathematical modeling of security systems at an enterprise using<br>the features of modern instant messengers .....                                 | 20 |
| <b>S. I. Shterenberg, I. E. Pestov, D. B. Kazakov, M. V. Ilyn</b><br>Top tips for organizations before migrating their data to the cloud.<br>Analysis of effectiveness on the example of the ZKU RVS .....                      | 26 |
| <b>K. A. Akhrameeva, M. Yu. Fedosenko</b><br>Comparative analysis of the use of steganographic software<br>for hidden data exchange on the internet .....   | 37 |
| <b>D. Yu. Yurkin, G. E. Voroshnin, M. M. Kovtsur, B. S. Mislivsky</b><br>Investigation of the impact of ARPinject and Associationflood attacks<br>on wireless networks based on MikroTik equipment .....                        | 44 |
| <b>A. G. Makarov, D. O. Redkin</b><br>Mathematical modeling of creep processes of non-woven materials<br>manufactured using the «Spunbond» technology .....   | 49 |
| <b>A. V. Meleshko</b><br>Models and methods for proactive monitoring<br>of the state of wireless sensor networks .....  | 52 |
| <b>D. V. Kushnir, O. M. Shterenberg (Vinogradova), A. Yu. Khoromskaya</b><br>Development of a system for processing fuzzy models of the results<br>of mastering educational programs in the field of information security ..... | 59 |
| <b>P. I. Sharikov</b><br>A technique for obfuscating the bytecode of a java application in order<br>to protect it from decompilation attacks .....  | 64 |
| <b>A. S. Gorshkov, A. S. Stepashkina</b><br>Enumerator method for solving heat conduction problems .....  | 73 |
| <b>B. E. Malyugin, S. N. Sakhnov, L. E. Aksenova, K. D. Aksenov,<br/>A. V. Krasov, V. V. Myasnikova</b><br>Application of machine learning methods in the development<br>of an algorithm for the diagnosis of keratoconus ..... | 79 |
| <b>A. V. Epifanov, N. Yu. Abramov, M. A. Epifanova, V. I. Klyazmin, S. Ya. Frolov</b><br>Development of software for calculating the model of wind currents .....   | 87 |

### CHEMICAL SCIENCES

|  |    |
|--|----|
| <b>E. V. Kudriavtseva, A. A. Burinskaya, Yu. A. Sergutina</b><br>Obtaining of colloidal solutions of metallic iron and iron-silver nanoparticles .....       | 92 |
| <b>I. N. Ganiev, L. Z. Alieva, A. E. Berdiev, S. J. Alikhonova</b><br>Kinetics of oxidation of zinc alloy TSAMSv4-1-2.5 with sodium in the solid state ..... | 97 |

|   |     |
|---|-----|
| <b>Kh. Z. Karambakhshov, M. Bobomulloev, Sh. R. Samikhov, S. Sh. Safarov</b><br>Pva-based film-forming cleaning systems for removing corrosion products from archaeological copper products found at archeological excavations Mes Aynak. . . . . | 103 |
| <b>S. A. Yakimov, A. V. Koksharov</b><br>The use of various acids to improve the washing of unbleached sulfate softwood . . . . .   | 111 |
| <b>I. N. Ganiev, P. N. Abdukhalikova, A. E. Berdiev, S. J. Alihanova</b><br>Effect of tellurium additives on heat capacity and thermodynamic functions of zinc alloy TSAMSV4-1-2.5. . . . .   | 115 |
| <b>AUTOMATION AND MANAGEMENT OF TECHNOLOGICAL PROCESSES AND PRODUCTION</b>  |     |
| <b>D. A. Kovalev, V. A. Sharyakov, O. L. Sharyakova</b><br>Modeling of the system of automatic control of power unit capacity with non-uniformity under changes in the total load of the power system. . . . .                                    | 122 |
| <b>E. V. Korsa-Vavilova, E. V. Naumenko, A. Ya. Shmelev, V. L. Gibalov, V. L. Bozhko</b><br>Algorithm for fuzzy control of water ozonation dose at water supply stations . . . . .  | 130 |
| <b>Gorobchenko S. L., Kovalev D. A.</b><br>Development of automated process control systems based on the laws of development of technical systems . . . . .   | 135 |
| <b>E. P. Dyatlova, I. V. Remizova</b><br>Optimization of the process of bleaching thermomechanical mass . . . . .   | 145 |
| <b>V. Yu. Ivanov, D. A. Shurygin</b><br>About digital regulation of air flow temperature. . . . .   | 151 |
| <b>K. G. Pugin, I. E. Shayakbarov</b><br>Improving the reliability of hydraulic systems of construction and road vehicles operated in winter in the arctic zone of Russia. . . . .  | 154 |
| Authors list . . . . .  | 165 |
| Information for authors. . . . .  | 169 |
