

## TABLE OF CONTENTS

### Memories of Alexander Ivanovich Meos

<b>A. A. Lysenko</b> Scientist and teacher. To the 125th anniversary of A. I. Meos's birth. . . . .	6
<b>V. E. Romanov</b> Grateful and proud . . . . .	10
<b>E. L. Akim</b> In honour of Alexander Ivanovich Meos. . . . .	11
<b>L. I. Friedman</b> Memories of Alexander Ivanovich Meos . . . . .	13

### Scientific articles

<b>A. A. Lysenko, O. V. Astashkina, N. V. Diankina, O. V. Kydrinskaya</b> Study of diffusion processes involving methylene blue dye and activated carbon fibers. . . . .	14
<b>D. A. Bondarev, A. V. Bepalov, N. V. Sheldeshov, V. I. Zabolotsky</b> Preparation and electrochemical performance of a bipolar membrane with an oxidised graphite-based catalytic additive. . . . .	18
<b>V. A. Zhukovsky, A. Brussevich, E. D. Korobova</b> Researching the influence of solutions rheology on formation of the interpolymer complex of carboxymethylcellulose. . . . .	25
<b>S. Yu. Vavilova, N. P. Prorokova, I. V. Kholodkov, T. Yu. Kumeeva</b> Polypropylene yarns with polytetrafluoroethylene-based coated containing magnetite particles: resistance of coating to adhesion destruction . . . . .	29
<b>A. A. Lysenko, O. V. Astashkina, O. I. Gladunova, N. V. Diankina</b> About one of the ways to obtain composites and nanocomposites. . . . .	36
<b>N. V. Kolokolkina, L. V. Redina, I. L. Ignatov</b> Obtaining and studying the properties of a modified fluorolone fiber containing polyfluoroalkylacrylates in the structure. . . . .	39
<b>T. B. Koltsova, E. S. Tsobkallo</b> Patterns of deformation characteristics of elementary wool fibers from the standpoint of statistical approaches . . . . .	42
<b>N. S. Lukicheva, O. I. Gladunova, D. D. Fedoseenkova, A. A. Lysenko</b> On the chemical resistance of thermosetting matrices of polymer composite materials . . . . .	47
<b>A. A. Lysenko, N. S. Lukicheva, I. V. Lishevich, V. V. Martsenyuk, O. V. Astashkina</b> About modeling composites . . . . .	52
<b>Yu. A. Fomenko, S. V. Timofeev, Yu. Yu. Vilachev, A. A. Lysenko, O. V. Astashkina, V. V. Martsenyuk</b> Development and properties of composites with fluoroplastic matrices. . . . .	59
<b>A. A. Lysenko, V. V. Martsenyuk, N. A. Grozova</b> Obtaining and investigation of some properties of carbon-polymer composites on a woven basis. . . . .	65
<b>A. A. Lysenko, V. V. Martsenyuk, D. V. Pyatasheva</b> Investigation properties of carbon-fluoropolymer composite materials of fibrous structure . . . . .	71
<b>A. S. Shcherbakov, A. S. Mostovoy, S. V. Arzamastsev, D. A. Petrova</b> Effect of carbon nanotubes and microwave electromagnetic field on properties of fiberglass based on polyester resin . . . . .	76

<b>N. A. Sazhnev, N. R. Killdeeva</b>	
Preparation of water-insoluble fibrous materials from regenerated fibroin .....	80
<b>M. A. Seredina</b>	
Investigation of the influence of the chemical nature of polymer fibers on the combustion process of mixed compositions .....	85
<b>L. A. Shcherbina, V. M. Chikunskaya, V. A. Ogorodnikov, I. A. Budkute</b>	
Preparation and properties of materials based on ionogenic copolymers of acrylonitrile and 2-acrylamido-2-methylpropanesulfonic acid (review) .....	91
<b>L. A. Shcherbina, Y. Yu. Rudenok, V. V. Shablovskaya, I. A. Budkute</b>	
Study of the synthesis of fiber-forming acrylonitrile copolymer in the presence of silicon oxide nanoparticles .....	98
Authors list .....	106
Information for authors .....	108
