

## TABLE OF CONTENTS

### MATH MODELING. METHODS AND SYSTEMS OF INFORMATION PROTECTION, INFORMATION SECURITY

<b>V. I. Vagner, N. V. Pereborova</b> Digital prediction of deformation processes in fabrics for parachute canopies . . . . .	5
<b>A. V. Demidov, A. G. Makarov, V. I. Vagner</b> Computational Prediction of Deformation-Relaxation Processes of Aramid Materials at Variable Temperature. . . . .	10
<b>M. A. Egorova, A. A. Kozlov</b> Modeling and analysis of the functional properties of mining and fire-rescue aramid materials. . . . .	17
<b>S. V. Kiselev</b> Mathematical modeling of deformation processes of heat-resistant aramid materials. . . . .	23
<b>A. A. Kozlov, S. V. Kiselev</b> Conducting a qualitative analysis of the operational properties of parachute lines . . . . .	30
<b>A. A. Kozlov</b> Systematic study of the functional properties of polymeric textile materials based on mathematical modeling of their deformation processes. . . . .	37
<b>I. A. Nebaev, M. O. Pervushina, E. S. Kokorin</b> Development of an intelligent information system in the field of microbiology with support for decision-making functions based on machine learning. . . . .	45
<b>N. V. Pereborova, N. S. Klimova, V. I. Vagner</b> Calculation of the component of irreversible deformation of deformation processes of nonwoven materials. . . . .	52
<b>N. V. Pereborova, M. A. Egorova, Ya. S. Tomashevich</b> Mathematical modeling of operational processes of parachute lines . . . . .	55
<b>N. V. Pereborova, A. A. Kozlov</b> Mathematical modeling and system analysis of deformation processes of aramid materials. . . . .	61
<b>N. V. Pereborova, I. M. Egorov, Ya. S. Tomashevich</b> Modeling and Spectral Analysis of Deformation-Relaxation Processes of Polymeric Textile Materials . . . . .	67
<b>V. I. Sidelnikov, A. V. Koksharov</b> Mathematical model of sulphate hardwood pulp cooking . . . . .	73
<b>S. I. Shterenberg, V. V. Nefedov, V. I. Andrianov, V. A. Lipatnikov</b> Technique for covert injection of executable code into distributed information systems using an agent-based approach . . . . .	76
<b>S. I. Shterenberg, O. I. Shelukhin, A. D. Lebedeva</b> Designing the architecture of an intrusion detection system with deep and machine learning based on a quasi-biological paradigm. . . . .	86
<b>CHEMICAL SCIENCES</b>	
<b>I. N. Ganiev, P. N. Abdukholikova, A. E. Berdiev, S. J. Alikhonova</b> Study of the kinetic and energy characteristics of the process of oxidation of zinc alloy TsAMSV4 1 2.5 with thallium, in the solid state. . . . .	92

<b>I. N. Ganiev, Sh. Kh. Saidov, Kh. M. Khodzhanazarov, F. K. Khodzhaev, M. A. Umarov</b>	
Influence of gallium on the corrosion-electrochemical behavior of lead babbitt BGa (PbSb15Sn10Ga) in NaCl electrolyte medium . . . . .	97
<b>A. A. Kuzmenko, O. P. Beterina, M. S. Kalugina, A. P. Mikhailovskaya</b>	
Application of nanosized gold particles in photocatalytic oxidation of aliphatic alcohols. . . . .	102
<b>V. A. Yakovlev, D. A. Kim, E. S. Abramova, L. V. Drozdova</b>	
Mathematical model of a three-stage installation for absorption cleaning of flue gases from sulfur dioxide with a soda solution. . . . .	105
<b>AUTOMATION AND CONTROL OF TECHNOLOGICAL PROCESSES AND PRODUCTION</b>	
<b>K. A. Gradusov</b>	
Analysis of the first results of the transition to the exchange of electronic documents through the system of interdepartmental electronic document management in format 2.7.1 on the example of the Ministry of Science and Higher Education of the Russian Federation . . . . .	112
<b>M. A. Kanevsky</b>	
Perspectives on the use of chatgpt in the fashion industry . . . . .	115
<b>M. A. Kanevsky</b>	
Problems of using natural language recognition technologies when creating chat bots in e-commerce projects for the fashion industry. . . . .	121
<b>D. A. Kovalev, S. L. Gorobchenko</b>	
A systematic approach to the analysis of the emergency situation «explosions of combustible gases in the combustion chamber» and clarification of the requirements for the emergency protection system of soda recovery boilers. . . . .	126
<b>E. V. Mayorova</b>	
General questions of data engineering . . . . .	135
Сведения об авторах . . . . .	143
Информация для авторов . . . . .	145
