

TABLE OF CONTENTS

SYSTEM ANALYSIS, CONTROL AND INFORMATION PROCESSING

- V. I. Wagner, S. V. Kiselev, A. A. Kozlov**
Method of numerical prediction of deformation processes of sewing materials 5
- V. I. Wagner, M. A. Egorova, I. M. Egorov**
Study of the influence of deformation on the performance properties of geotextile nonwoven materials 10
- A. V. Demidov, A. G. Makarov**
Spectral analysis of deformation processes of geotextile nonwoven materials 15

MACHINES, AGGREGATES AND TECHNOLOGICAL PROCESSES

- A. Yu. Ataeva, G. I. Sverdlik, D. A. Kambolov, A. R. Ataev**
Development of a process line for purification of dust and gas emissions containing nanoparticles 22
- L. V. Smirnov, N. N. Kokushin, A. P. Batenev, E. A. Efimov**
Gears from polymeric materials 26
- M. S. Chepchurov, B. S. Chetverikov, N. S. Ljubimyj, A. S. Luk'janov**
Structure of the automated complex for sorting fruit and vegetable products 31
- I. A. Semikopenko, D. A. Belyaev, V. P. Voronov, D. V. Vavilov**
Description of the process of grinding material particles in the working chamber
of a centrifugal disc grinder 36

PRODUCT QUALITY CONTROL. STANDARDIZATION. ORGANIZATION OF PRODUCTION

- P. A. Shikov, D. A. Ermin, Yu. A. Shikov**
Adoption of organizational and technical decisions in the management of a light industry enterprise 39
- R. S. Sychev, Yu. Yu. Cheremuhina**
Process control of design of RES in the system of management of lean production 46
- E. E. Smirnova, D. A. Radushinsky, D. A. Kremcheeva**
Priority tasks of standardization in the field of hydrogen technologies 52
- K. V. Kaisheva**
The modern research directions within the topic of sportswear quality management (the review) 56
- A. V. Knyazev, Yu. Yu. Cheremukhina**
The problems of developing standards to ensure the development of metaverses 61
- E. A. Skorniakova, K. V. Zolotukhin**
Methodology of components quantity calculation to ensure certain level of flexibility 67
- A. V. Arkhipov, D. E. Platonov**
Evaluation of the performance of the technological network by the value of the maximum flow 72

TECHNOLOGY AND PROCESSING OF SYNTHETIC AND NATURAL POLYMERS AND COMPOSITES

- I. Yu. Ivanova, N. P. Midukov**
Critical analysis of 3D scanning methods for reverse engineering of equipment parts
of the stock preparation department of paper production 77
- M. A. Midukova, A. G. Kuznetsov, N. P. Midukov, E. E. Korotkova, D. V. Inyakina**
Influence of various methods of recovered paper deinking on optical properties of paper 85

TECHNOLOGY OF PRODUCTION OF TEXTILE AND LIGHT INDUSTRY PRODUCTS

N. V. Pereborova
 Methodology of mathematical simulation of operating
 and relaxation processes of polymeric textile materials 90

N. V. Pereborova
 Development of methods for mathematical modeling of deformation processes
 of polymeric textile materials 96

N. V. Pereborova, N. S. Klimova
 Accounting for the irreversible deformation component in prediction
 of deformation processes of geotextile nonwoven materials 101

M. A. Kanevskiy
 Comparative analysis of the use of arduino-based microcontrollers
 for the manufacturing of wearables. 105

N. P. Bodryakova, M. V. Gorbacheva, O. A. Strepetova
 Problems of preserving the quality of wool as a raw material for the textile industry 110

I. A. Sheromova, I. A. Slesarchuk
 Application of typical design methods in creating tight-fitting clothing models
 from highly elastic materials 116

On the anniversary of Markovets Aleksey Vladimirovich 122

Authors list 126
