

## TABLE OF CONTENTS

### PRODUCT QUALITY CONTROL. STANDARDIZATION. ORGANIZATION OF PRODUCTION

<b>N. V. Pereborova, A. M. Litvinov, L. V. Titova</b> Solving the task of increasing the quality and competitiveness of products of textile and light industry . . . . .	5
<b>S. V. Kiselev, A. A. Kozlov</b> Digitalization of prediction of operational processes of polymeric textile materials . . . . .	10
<b>N. V. Pereborova</b> Solution of the problem of quality management of materials for textile and light industry. . . . .	16
<b>S. V. Kiselev</b> Methods for monitoring the viscoelastic characteristics of polymer fabrics . . . . .	23
<b>E. A. Ageeva</b> Ways to reduce the energy intensity of products produced at textile and light industry enterprises . . . . .	32
<b>P. A. Shikov</b> Improving the efficiency of an industrial enterprise in the context of the introduction of industrial innovations. . . . .	44
<b>P. A. Shikov</b> Principles of justification of improving the efficiency of light industry enterprises in the conditions of digitalization of production . . . . .	50
<b>L. N. Nikitina, E. A. Kraikina, N. M. Kasumova</b> Analysis of the development and prospects of the raw material base of the textile industry . . . . .	55
<b>L. N. Nikitina, E. A. Kraikina, N. M. Kasumova</b> The direction and prospects of the development of the raw material base of textile products at the present stage . . . . .	59
<b>T. A. Flyagina, L. N. Nikitina</b> Development of a quadratic integral indicator for determining production efficiency. . . . .	64
<b>A. I. Bogdanov, Yu. S. Kulesh</b> Stochastic model of optimization of the new product development plan . . . . .	67
<b>A. I. Bogdanov, K. V. Kaisheva</b> Application of qualimetry methods to perceived quality estimation (Article in English) . . . . .	71
<b>M. N. Titova, L. K. Sirotina</b> Methodological stages of digitalization of operational and production order planning at a sewing enterprise . . . . .	75
<b>A. D. Kilimova</b> The use of an expert system for the modernization of the technological process at light industry enterprises . . . . .	79

### MACHINES, AGGREGATES AND TECHNOLOGICAL PROCESSES

<b>M. V. Stepanov, A. A. J. K. Mahdi Hamdan, A. G. Usov</b> Modeling the bending of tissue flap suspended at some point . . . . .	83
--	----

### SYSTEM ANALYSIS, CONTROL AND INFORMATION PROCESSING

<b>A. G. Makarov, D. A. Ovsyannikov</b> Determination of the activation energy of the processes of relaxation and creep of polymeric materials . . . . .	89
---	----

<b>A. M. Litvinov, D. A. Ovsyannikov, A. G. Makarov</b> System analysis of sewing materials creep processes . . . . .	94
<b>A. G. Makarov, S. V. Kiselev, A. A. Kozlov</b> Mathematical modeling and prediction of operational processes of polymeric textile materials. . . . .	99
<b>R. A. Gorshkov, A. R. Raitseva, I. A. Voilokov</b> System analysis of the causes of damage to the facing ceramic brick . . . . .	106

**TECHNOLOGY AND PROCESSING OF SYNTHETIC AND NATURAL POLYMERS AND COMPOSITES**

<b>P. V. Kaurov, V. S. Kurov, N. N. Kokushkin, N. P. Midukov</b> On further increase of working speeds of flat-mesh paper machines . . . . .	115
<b>N. V. Evdokimov, A. N. Keutaeva</b> Wood waste characteristics in chips production and evaluation of their possibility as a raw material for additive technologies. . . . .	119
<b>A. S. Chornous, I. A. Raspopov, N. P. Midukov</b> Pulp molding products by wet and dry methods using 3D printed forms. . . . .	123

**TECHNOLOGY OF PRODUCTION OF TEXTILE AND LIGHT INDUSTRY PRODUCTS**

<b>A. A. Kozlov, S. V. Kiselev, D. A. Ovsyannikov</b> Mathematical modeling of mechanical processes of polymeric textile materials. . . . .	128
<b>A. G. Makarov, A. V. Demidov</b> Prediction of elastic, viscoelastic and plastic deformation of textile materials . . . . .	134
<b>A. A. Kozlov</b> Modeling the elasticity of textile yarns. . . . .	140
Authors list . . . . .	150
Information for authors . . . . .	152
